## BOATMEN'S UNION CALLS OFF STRIKE

4,000 Members, One-Quarter of Harbor Workers Out, Accept Settlement.

By the Associated Press.  
NEW YORK, March 7.—Unrestricted acceptance by the tidewater boatmen's union of the offer of the railroad administration for the settlement of the harbor strike was announced today by John Brennan, president of the union, representing 4,000 boatmen. The action of the other six affiliated unions, representing the remaining 12,000 union harbor boatmen, had not this afternoon been determined. The railroad administration operated 40 per cent of the boats that have been tied up by the strike which began Tuesday morning and has virtually stopped transatlantic and coastwise commercial shipping from this port.

Before going into a conference with officials of the railroad administration, representatives of the Marine Workers' Union, the general organization which is conducting the strike, sought to obtain from President Frank T. Hines, in charge of the work of debarcation of government piers here, a promise that the Army would abide by the terms of settlement of the railroad administration. Gen. Hines declared that he was not empowered to act, but that he would make the matter up with Secretary Baker after the unions had presented their new wage and hour schedule. Boats engaged in transporting troops, carrying sick and wounded or other war work have been exempted from strike action by a vote of the strikers' committee.

## GEORGE TAYLOR, SLAYER, GETS 30-YEAR SENTENCE

Two Highwaymen Given Six Years; Housebreaker Goes Up for Three Years.

George Taylor, colored, recently convicted of murder in the second degree in connection with the death of Charles Johnson, was sentenced today by Justice Siddons, in Criminal Division 1, to serve thirty years in the penitentiary. Taylor was indicted for first-degree murder, but the jury reduced the status of the crime to second degree. The tragedy occurred June 17 'ast. William Johnson and Hillary Tillman, both colored, who pleaded guilty to assaulting and robbing the Silverman, were sentenced to serve six years each in the penitentiary. The men entered the store of Silverman November 23 last, shot him and took \$12 from the cash drawer. Thomas J. Howard, colored, was given three years in the penitentiary. He pleaded guilty to housebreaking and assault. He broke into the store of Henry Moy and beat him.

## INQUIRY BY COMMISSION MAY BRING LEGISLATION

Mr. Keating of Joint Board on Reclassifying Federal and D. C. Employees Expects Big Results.

That the inquiry by the joint congressional commission into the reclassification of federal and District of Columbia employees will lead to far-reaching legislation is the opinion of former Representative Keating of Colorado, the secretary of the commission.

Mr. Keating said today that he believed that besides leading to recommendations for the reclassification of the employees, the inquiry by the commission would bring about recommendations for the establishment of fair remuneration to the government employees for the work done; that recommendations would be made for the establishment of a minimum wage for government workers, which would be a criterion for the rest of the country, and that recommendations would be made for a civil service retirement system.

Mr. Keating was the co-author of the McKellar-Keating civil service retirement bill, which was presented at the last Congress and reported favorably in both houses.

## Separate Legislation Sought.

After the commission has submitted its report to Congress, Mr. Keating said, he believed that a bill would be introduced and pressed carrying out the recommendations of the report. It will be pressed as separate legislation and not as a rider to one of the appropriation bills, in his opinion. He believes that the legislation which will be proposed should be considered on its own merits.

Arrangements are now expected to go through in a few days for permanent headquarters for the joint commission in the Senate office building. The commission will not meet again until some data it has asked for has been obtained from the government departments. Later hearings will be held.
